

IEEE-PEO-OACETT PLANT TOUR

BRYSTON PETERBOROUGH

Nov. 14th. & 15th. and December 5th., 2016.

Bryston Ltd. has been designing and manufacturing state of the art specialty electronics for the consumer and professional audio marketplaces for over 35 years.

Following in the fine tradition of artisan craftsmanship worldwide, every audio component is handcrafted by people who take tremendous pride in building the very best. Each component is hand selected and installed, every wire is cut and bent by hand, and every connection is hand soldered.

Bryston products allow you to enjoy a generation of sound, music, and incredible performance. Bryston is based in Peterborough, Ontario, Canada, and is sold through over 150 dealers in North America and 60 countries worldwide. In Peterborough they are represented by Kawartha TV & Stereo.

This was an opportunity to visit a unique, world class manufacturing facility, located right in Peterborough. The response was so great that it was necessary to have three tours. These occurred on Nov. 14th., Nov. 15th., and Dec 5th. Total attendance was almost 90 people. Brian Russell, President of Bryston, conducted the tours and was an entertaining and informative host. The tour was organized by IEEE Peterborough Section.
